

## **To All Members of the Victorian Parliament**

I am writing this letter to represent the many ill, frail and elderly members of the community who, like me are unable to be here in person today because of our illness or disabilities.

Many of us have signed the petition, and others who are of like mind, also wish to have a voice.

We are of sound mind, and understanding the nature of our health condition and the possibility of future outcomes, we request legislative changes to the Medical Treatment Act and Advance Directives, and to have the right to access medical assistance to die peacefully.

This is why people have gathered here today, to demonstrate that in the 21<sup>st</sup> century that Dying With Dignity can be achieved, and that is our choice.

Yours Sincerely

June Reeder, Donvale
